## Australian Gutter Protection made for Australian Conditions

- Manufactured in Australia for all Australian conditions.
- BlueScope Zinculume .55mm thick Steel.
- 360° degree Fully powder coated for optimum protection, durability and good looks.  
Complete coverage of exposed metal edges.  
Superior protection from UV Rays and the elements.  
Superior protection from salt water within coastal areas.
- Specially engineered apertures and channels for maximum water flow and catchment.
- Complies to all BAL ratings – when building in bushfire prone areas
- Certificates: 0 (zero) flammability & Ignitability certificate as granted by the CSIRO
- Apertures size Max 5mm - Compliant with BCA & AS3959 -2009 for gutter guards
- Bird and vermin proofing a speciality – no need for harmful insecticides.
- The only custom cut & folded gutter protection.
- Custom widths available – a speciality on box gutters.
- Suitable for all Domestic, Commercial and Industrial applications.
- A National Code compliant company.
  - Complies to AS3959-2009
  - Complies to AS1530.2
- OH&S certified and insured installers.
- Licensed to carry out gutter guard installations.
- Used extensively on schools with all major builders and government works, aged care facilities and commercial works.
- Warranty: 10 Years Manufacturer's Warranty

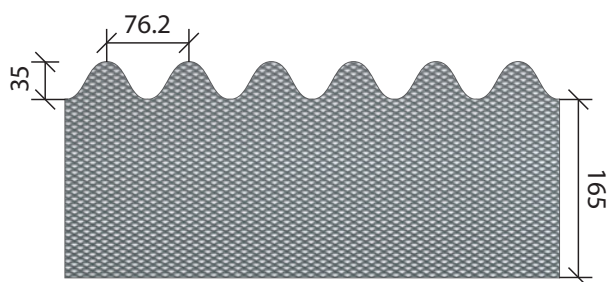

## Flat Standard 200mm wide

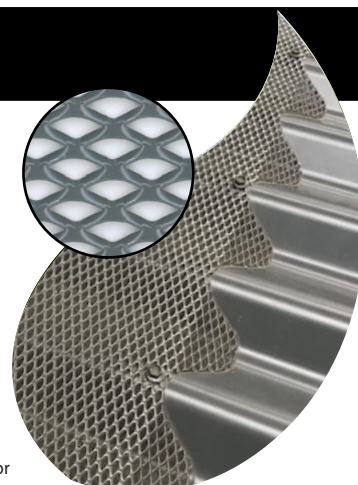

- Standards used for multiple purposes. Metal Valleys, Under All Roof Tiles, Under Metal Roofs, Slate Tiles, Pergolas, Patios, Awnings etc.

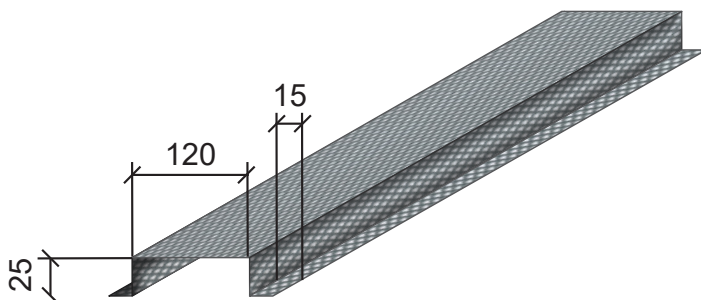

## Corrugated

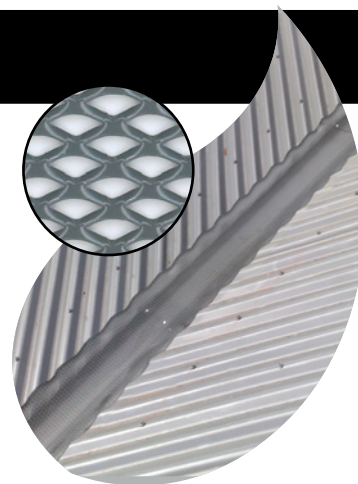

- The Signature Product of Corrugated Gutter Guard.
- Available in standard widths of 200mm to over 1000mm.
- Caters for all roof situations be they large box gutters, end span screw line, large half round and so forth.
- Also available in reverse format for high pitch situations or for a larger capture of rainwater.

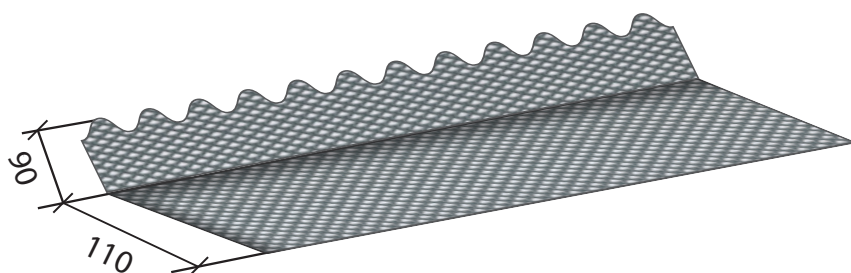

## Stealth Valleys for Corrugated Roof

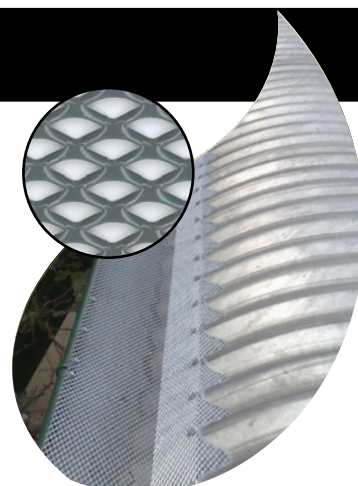

- Offered as an alternative to flat 'hammered' corrugated valleys.
- Does not penetrate roof sheet or need silicone.
- Measurements of fold and step need to be taken accurately.

## Bullnose

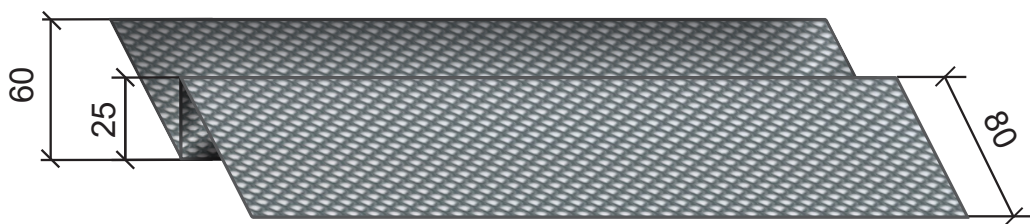

- The signature product of corrugated gutter guard specifically designed and custom made to suit all Bullnose roof and gutter applications.

## Tile fold 25 step

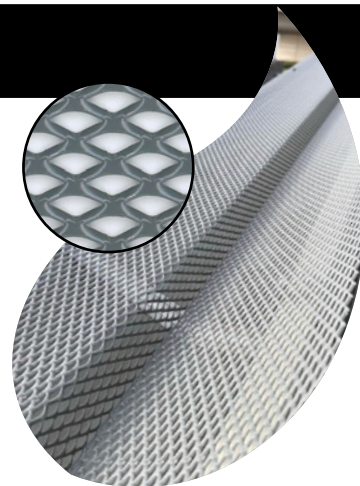

The leading solution for a standard tile fold.

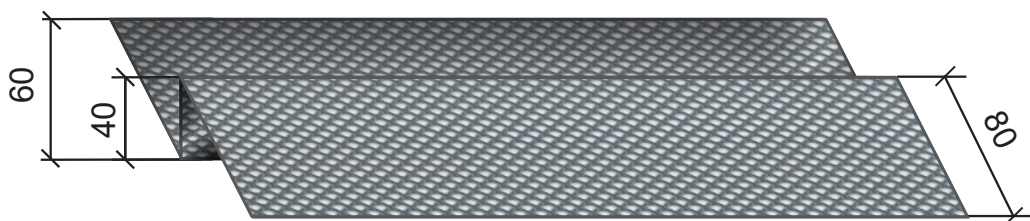

- Product sits on top of gutter or fitted into lip.
- Folded to suit tile and goes under the first row of

tiles blocking all access to under- roofline.

- Neat, aesthetic and highly recommended for high fire areas.

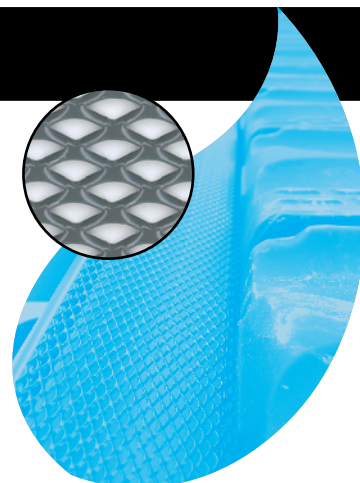

## Tile Fold 40 Step

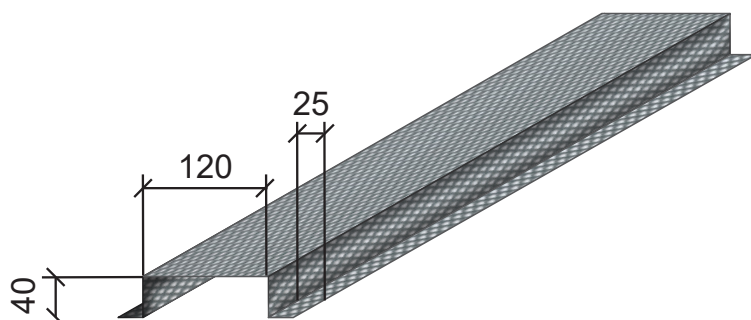

- Suited for Terracotta tiles and has an extra 15mm in the step.

- When using 'bigger' steps, a wider than normal 200mm sheet may be needed to reach the fascia.

## Stealth for Tile Valleys

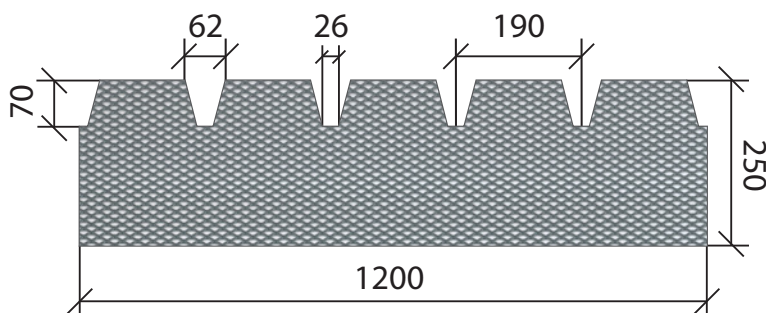

- The perfect solution for both Tile & Corrugated Valleys.
- By applying a slight pressure on the sides of the fold, the

wings of the Stealth fit neatly under the valley roofline.

- Perfect for high fire rated areas.

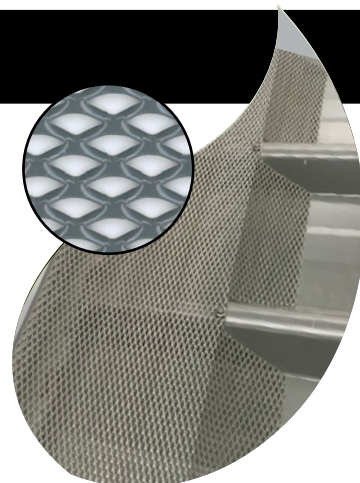

## 190 Centres

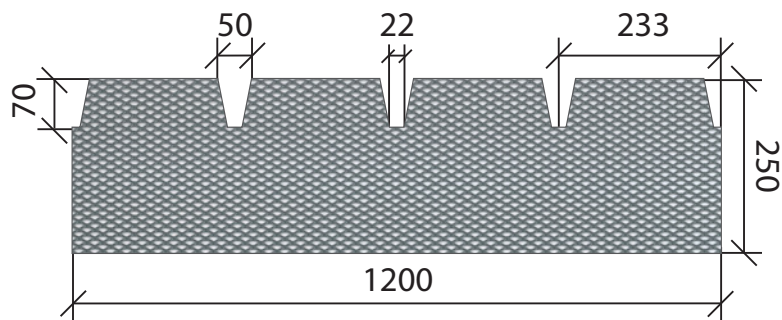

Signature product, pre-cut, folded and designed to suit:

*Lysaght Trimdek®, Stramit Monoclad®, Metroll Trimclad®, Stratco Superdek®.*

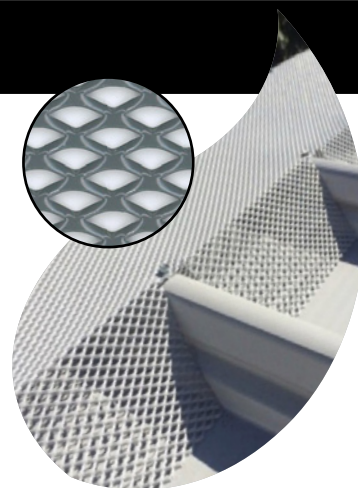

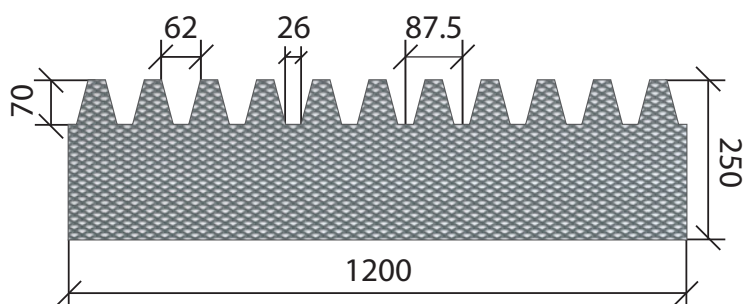

## 233 Centres

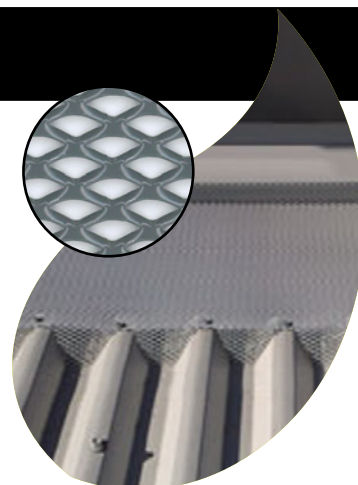

Signature product, pre-cut, folded and designed to suit:  
*Lysaght Klip-Lok 700°*, *Stramit Speed Deck®*, *Metroll Metlock 700°*, *Stratco Topdek 700°*.

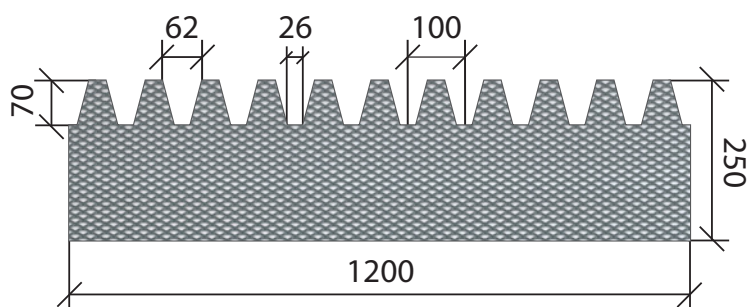

## 87.5 Centres

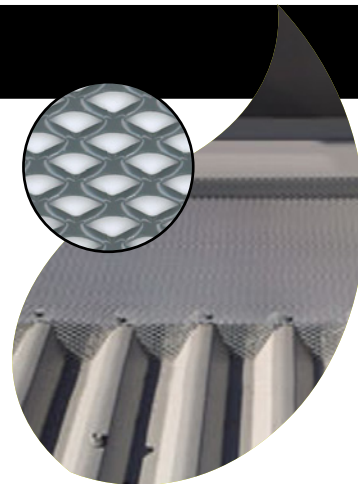

Signature product, pre-cut, folded and designed to suit:  
*Lysaght Spandek®*, *Metroll MetroSpan 700°*, *Stratco Smartspan®*.

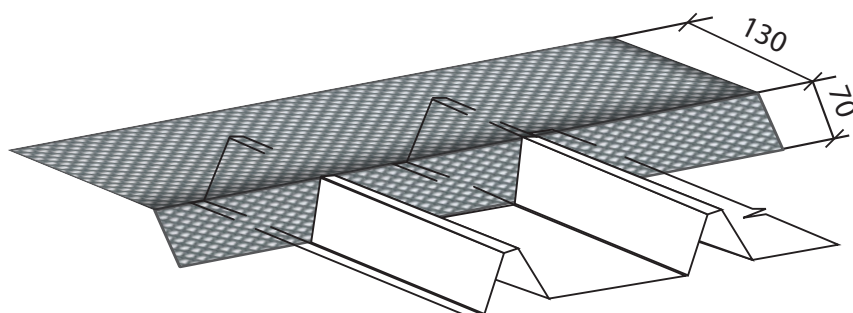

## 100 Centres

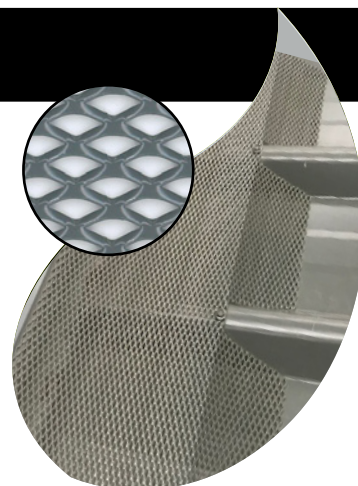

Signature product, pre-cut, folded and designed to suit only *Stramit Longspan®*.

## Croc Fold

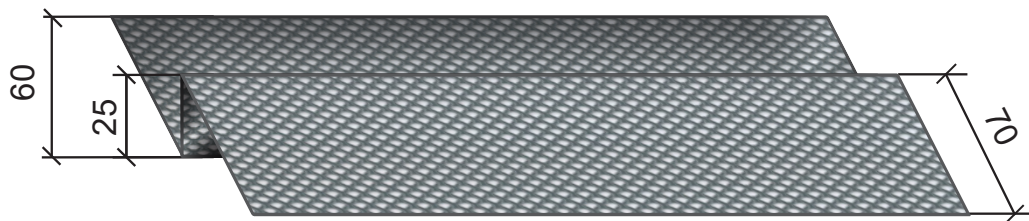

- Flat product with a 70mm (nominal) down fold on the roof side of the product.
- Can be utilised on all other remaining flat metal roofing profiles (e.g. patios, awnings, pergolas etc.).

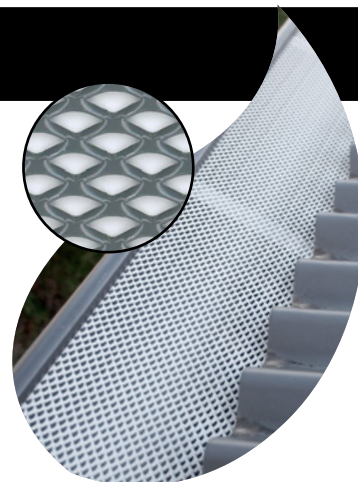

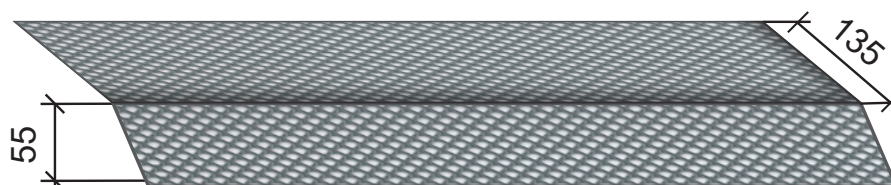

## Quad

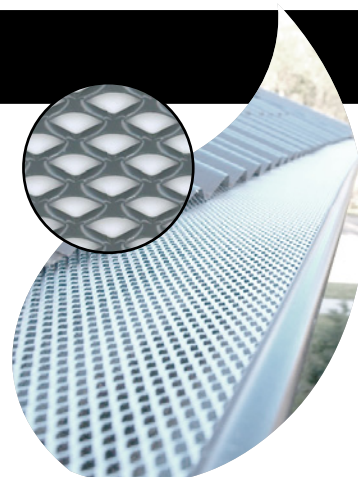

- The leading solution for a quick and easy installation.
- Manufactured to suit Quad Gutters.
- Product sits into lip of gutter – Job Done!
- Neat, aesthetic and highly recommended.

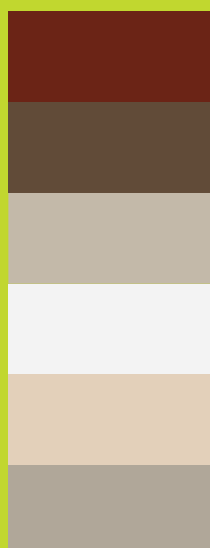

## 150 Half Round

- The leading solution for a quick and easy installation.
- Manufactured to suit Half Round Gutters.
- Product sits into lip of gutter – Job Done!
- Neat, aesthetic and highly recommended.
